III. STATEMENT OF CLAIMPlace(s) of occurrence: US District Court of Western PennsylvaniaDate(s) of occurrence: 1996 to 2003.**FACTS:**

State here briefly the FACTS that support your case. Describe what happened, how you were harmed, and what each defendant personally did or failed to do that harmed you. Attach additional pages if needed.

During the proceedings held for the air disaster of USAir Flight 427 in Pittsburgh, PA case # MDL 1040, from 1996 to 2003 the Boeing Co. received my Un-Patented Technology from my representatives who were the former International Product and Design Inc. the Disclosure Document of the Air Traffic Control Fuel Warning System. The ATC Fuel Warning System was to prevent the loss of Hydraulic Cooling (to the Hydraulic Heat Exchanger in the Main Fuel) to the Rudder Power Control Unit. Because USAir Flight 427 the Main Fuel Tanks did NOT have enough fuel to afford coolancy to the Hydraulic Heat Exchangers that are located inside of the Main Fuel Tanks. It was during the Congressional Hearings being held for the Boeing 737 MAX '8' in 2019, after I had submitted written Testimony as a Whistle Blower citing the cause of failure to the MCAS System, was due to the "Early Dismissal" of Fuel from the Combustion Chambers of both Engines. I then stated that my technology could have monitored this dismissal and continued Fuel Flow to both engines by ordering the Auto Fuel Throttle Computer to continue fuel flow to both engines and the same time, notify Air Traffic Control. It is hereby by the US Congress making this Law, the Boeing Company Infringed this technology for its return to Service of its Boeing 737 MAX '8'. This technology consist of an independant FUEL PROBE that is connected to the Emergency Low Fuel Notication Unit that sends its signal of LOW FUEL to the Air Traffic Control Transponder to ALERT Air Traffic Control to expedite an Emergency Landing. This is why and when The Boeing Co. wrongfully, intentionally Patented my technology as being its Inventor. This technology has the air safety jurisdiction over several other air disasters such as TWA 800 and Air Avianca Flight 52.
